ENVIRONMENTAL ACCESS PROCESS INSTRUCTIONS

Licensing Process:

1. Once the application package is received by Jones Lang LaSalle Brokerage, Inc. (JLL), the application and drawing will be forwarded to the engineering firm to prepare the Exhibit “A” drawings for the contract. This process takes approximately 10 to 15 working days.

2. When the Exhibit “A” is completed, information will be forwarded to BNSF’s local Roadmaster for approval.

3. If you will be sampling surface or subsurface soil, sediments, groundwater or installing wells or other facilities associated with the environmental investigation or remediation, you must submit a Work Plan. BNSF has partnered with TRC Environmental Corporation (TRC), a company committed to providing professional services to review the Work Plan. The Work Plan should be sent to TRC at the same time as the application is submitted to JLL for processing.

   The Work Plan to be submitted must address the following items:
   • Point of Access
   • Outline of Areas to be impacted both on the drawing and on an aerial from Google Earth
   • Sampling locations (surface or subsurface soil, sediments and groundwater)
   • Methods of securing sample, frequency of samples, chemical analyses
   • Health and safety measures for Applicant’s Workers, Railroad Workers and any other workers on the site.
   • Training required for onsite workers (BNSF Contractor Orientation, 40 hour OSHA, etc.)
   • Pollution prevention measures
   • Runoff Management
   • Waste Management and disposal plan
   • Plugging, abandonment of physical features added to the site by Applicant
   • Site restoration plan
   • Expected Date of data to be shared with BNSF
   • Copies of any decree, consent order, etc. which is governing the proposed work by Applicant

   The Work Plan will only be reviewed if it is accompanied by a check for the correct amount as calculated on the Environmental Fee Calculator form. Please submit the Work Plan, the completed Environmental Fee Calculator form (see page 5) and your payment to:

   TRC Environmental Corporation
   Attn: BNSF Program Manager
   10550 Richmond Ave, Suite 210
   Houston, TX 77042

   Please note that the Applicant will be required to submit a photograph of the subject area before and after the site work. Photographs in all cases should include a landmark which will help identify the area. This process takes approximately 15 working days.
4. Once approvals have been received, a contract will be prepared and two (2) copies will be forwarded to you for an original signature. A letter will be sent to you that will provide directions regarding insurance and any additional fees.

5. Return the signed contracts (2 contracts with original signatures), along with the appropriate payment to JLL’s Permits Department.

6. The final contracts, with original signatures, will be presented for execution provided all payments have been received, the Environmental Work Plan has been approved and insurance is in compliance.

7. Once the contract is executed, one original will be returned to you for your files.

8. Prior to commencing any work on the Premises, Licensee shall complete and shall require its contractor (all parties who will be working on the site) to complete the safety training program at Internet Website [http://www.BNSFcontractor.com](http://www.BNSFcontractor.com). This training must be completed no more than one year in advance of Licensee’s entry on the Premises.

9. The cover letter and the executed contract will list the Roadmaster’s name and phone number. You will need to contact the Roadmaster or Wilson & Company ten (10) days prior to beginning work. The contact information will be provided to you when you receive your fully executed contract.

**Process Time:**

Please be advised that the average time period for completion of this process is **approximately 4 weeks** from the time that the application is received. Every effort will be made to complete this process in a timely manner.

**Insurance Requirements for the following Agreement:**

<table>
<thead>
<tr>
<th>Insurance Type</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Commercial General Liability Insurance</strong></td>
<td>Contractual Liability with a combined single limit of a minimum of $2,000,000 each occurrence and an aggregate limit of at least $4,000,000.</td>
</tr>
<tr>
<td><strong>Business Automobile Insurance</strong></td>
<td>Combined single limit of at least $1,000,000 per occurrence.</td>
</tr>
<tr>
<td><strong>Workers Compensation and Employers Liability Insurance</strong></td>
<td>Employers’ Liability with limits of at least $500,000 each accident, $500,000 by disease policy limit, $500,000 by disease each employee.</td>
</tr>
<tr>
<td><strong>Railroad Protective Liability Insurance</strong></td>
<td>Coverage of at least $2,000,000 per occurrence and $6,000,000 in the aggregate, with the exception of New Mexico in which coverage is $5,000,000 per occurrence and $10,000,000 in the aggregate.</td>
</tr>
<tr>

APPLICATION FOR ENVIRONMENTAL ACCESS AGREEMENT

Environmental Fee Calculator

This sheet is to be completed for each permit requested. The Environmental Fee calculated here is in addition to the Application Fee submitted to Jones Lang LaSalle Brokerage, Inc. (JLL). At the time the completed Application for an Environmental Access Permit and Application Fee are submitted to JLL, the Work Plan, Environmental Fee Calculator Form and all associated fees should be submitted to TRC. Modifications to the scope of work or investigation processes will require submission of a revised Work Plan and additional fees, including the Document Review Fee.

Send to:
TRC Environmental
Attn: BNSF Program Manager
10550 Richmond Ave, Suite 210
Houston, TX 77042
