

Customer Advisory Regarding Changes to the BNSF - 6003 Mileage Tariff

As part of the routine maintenance of its BNSF 6003 Rail Mileage Tariff, BNSF is making some updates, effective December 9th, (second Sunday of the month). Each quarterly change may result in changes to point-to-point rail mileages in BNSF's mileage-based fuel surcharges. This update will be version 2007.4 of the BNSF-6003 mileage tariff updates.

Summary for update Version 2008.1

Network Changes to the 6003 Tariff

The following changes have been made to published distances between existing stations that shall impact O/D pair mileages.

Added 4 miles to segment BASYARD, TX to GALPARK, TX

Please review this information for potential impact to your shipments routes that may occur for shipments starting September 9th. You may search BNSF rail mileage at www.bnsf.com under "Customer Tools."

Future BNSF-6003 tariff updates will be made on a quarterly basis. The next quarterly update is scheduled for March 09, 2008.
Please contact BNSF Agricultural Products at 817-352-6789 if you have any questions.
