

Customer Advisory Regarding Changes to the BNSF - 6003 Mileage Tariff

As part of the routine maintenance of its BNSF 6003 Rail Mileage Tariff, BNSF is making some updates, effective September 9th, (second Sunday of the month). Each quarterly change may result in changes to point-to-point rail mileages in BNSF's mileage-based fuel surcharges. This update will be version 2007.3 of the BNSF-6003 mileage tariff updates.

Summary for update Version 2007.3

Network Changes to the 6003 Tariff

The following changes have been made to published distances between existing stations that shall impact O/D pair mileages.
