Important Questions	Answers	Why this Matters:	PREMED
What is the overall <u>deductible</u> ?	In-Network and Out-of-Network: \$1,500 Individual/ \$3,000 Family Does not apply to preventive care and specific preventive medications targeting certain risk factors.	You must pay all the costs up to the <u>deductible</u> amount before this <u>health insurance</u> plan begins to pay for covered services you use. The <u>deductible</u> starts over each January 1. See the chart starting on page 2 for how much you pay for covered services after you meet the <u>deductible</u> . You may use funds, if available, from a health savings account (HSA) or health reimbursement account (HRA) toward paying the <u>deductible</u> and other out-of-pocket expenses.	
Are there other <u>deductibles</u> for specific services?	No.	You don't have to meet <u>deductibles</u> for specific services. See the chart starting on page 2 for other costs that you may be required to pay for services this plan covers.	
Is there an <u>out-of-pocket limit</u> on my expenses?	Yes. In-Network: \$3,500 Individual/ \$7,000 Family Out-of-Network: \$5,500 Individual/ \$11,000 Family	The <u>out-of-pocket limit</u> is the most you could pay during a coverage period (usually one year) for your share of the cost of covered services. This limit helps you plan for health care expenses.	
What is not included in the <u>out-of-pocket limit</u> ?	Premiums, balanced-billed charges and health care this plan does not cover.	Even though you pay these expenses, they do not count toward the <u>out-of-pocket limit</u> .	
Is there an overall annual limit on what the plan pays?	No.	The chart starting on page 2 describes any limits on what the insurer will pay for specific covered services, such as office visits.	
Does this plan use a <u>network of providers</u> ?	Yes. Depending on your choice of network, for a list of preferred providers see: Aetna: www.aetna.com or call 1-888-982-3862, or BCBS: www.bcbsil.com/bnsf or call 1-800-810-BLUE	If you use an in-network doctor or other health care <u>provider</u> , this plan will pay some or all of the costs of covered services. Be aware, your in-network doctor or hospital may use an out-of-network <u>provider</u> for some services. Plans use the term in-network, <u>preferred</u> or participating for <u>providers</u> in their <u>network</u> . See the chart starting on page 2 for how this plan pays different kinds of <u>providers</u> .

Do I need a referral to see a <u>specialist</u> ?	No.	You can see the <u>specialist</u> you choose without permission from this plan.
Are there services this plan doesn't cover?	Yes.	Some of the services this plan doesn't cover are listed on page 5. See the Plan Details (Summary Plan Descriptions) or plan document for additional information about <u>excluded services</u> .

- **Copayments** are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service.
- **Coinsurance** is *your* share of the costs of a covered service, calculated as a percent of the allowed amount for the service. For example, if the plan's allowed amount for an overnight hospital stay is \$1,000, your coinsurance payment of 20% would be \$200. This may change if you haven't met your deductible.
- The amount the plan pays for covered services is based on the allowed amount. If an out-of-network (non-preferred) provider charges more than the allowed amount, you may have to pay the difference. For example, if an out-of-network hospital charges \$1,500 for an overnight stay and the allowed amount is \$1,000, you may have to pay the \$500 difference. (This is called balance billing.)
- This plan may encourage you to use preferred providers by charging you lower deductibles, copayments and coinsurance amounts.

Your Rights to Continue Coverage:

If you lose coverage under the plan, then, depending upon the circumstances, Federal and State laws may provide protections that allow you to keep health coverage. Any such rights may be limited in duration and will require you to pay a premium, which may be significantly higher than the premium you pay while covered under the plan. Other limitations on your rights to continue coverage may also apply.

For more information on your rights to continue coverage, contact the BNSF Benefits Center at 1-877-451-2363. You may also contact your state insurance department, the U.S. Department of Labor, Employee Benefits Security Administration at 1-866-444-3272 or www.dol.gov/ebsa, or the U.S. Department of Health and Human Services at 1-877-267-2323 x61565 or www.cciio.cms.gov.

Your Grievance and Appeals Rights:

If you have a complaint or are dissatisfied with a denial of coverage for claims under your plan, you may be able to appeal or file a grievance. For questions about your rights, this notice, or assistance, you can contact: Aetna at 1-888-982-3862 or BCBS at 1-888-399-5945, the Department of Labor's Employee Benefits Security Administration at 1-866-444-3272 or www.dol.gov/ebsa/healthreform.

About these Coverage Examples:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

This is not a cost estimator.

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care will also be different.

See the next page for important information about these examples.

Having a baby (normal delivery)

- Amount owed to providers: \$7,540
- Plan pays \$4,690
- Patient pays \$2,850

Questions and answers about the Coverage Examples:

What are some of the assumptions behind the Coverage Examples?

- Costs don't include the premiums you pay for coverage.
- Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- The patient's condition was not an excluded or pre-existing condition.
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan, and deductibles assume single (non-family) coverage.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from in-network providers. If the patient had received care from out-of-network providers, costs would have been higher.

What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how deductibles, copayments and coinsurance can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

Does the Coverage Example predict my own care needs?

- ✗ **No.** Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is and many other factors.

Does the Coverage Example predict my future expenses?

- ✗ **No.** Coverage Examples are not cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your

providers charge and the reimbursement your health plan allows.

Can I use Coverage Examples to compare plans?

- ✓ **Yes.** When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples. When you compare plans, check the "Patient Pays" box in each example. The smaller that number, the more coverage the plan provides.

Are there other costs I should consider when comparing plans?

- ✓ **Yes.** An important cost is the premium you pay. Generally, the lower your premium, the more you'll pay in out-of-pocket costs, such as copayments, deductibles and coinsurance. You should also consider contributions you make to accounts such as a health savings account (HSA) that help you pay out-of-pocket expenses.
