

# ENHANCE YOUR HUB EXPERIENCE WITH RAILPASS – the safest, easiest and fastest way to do business with BNSF.

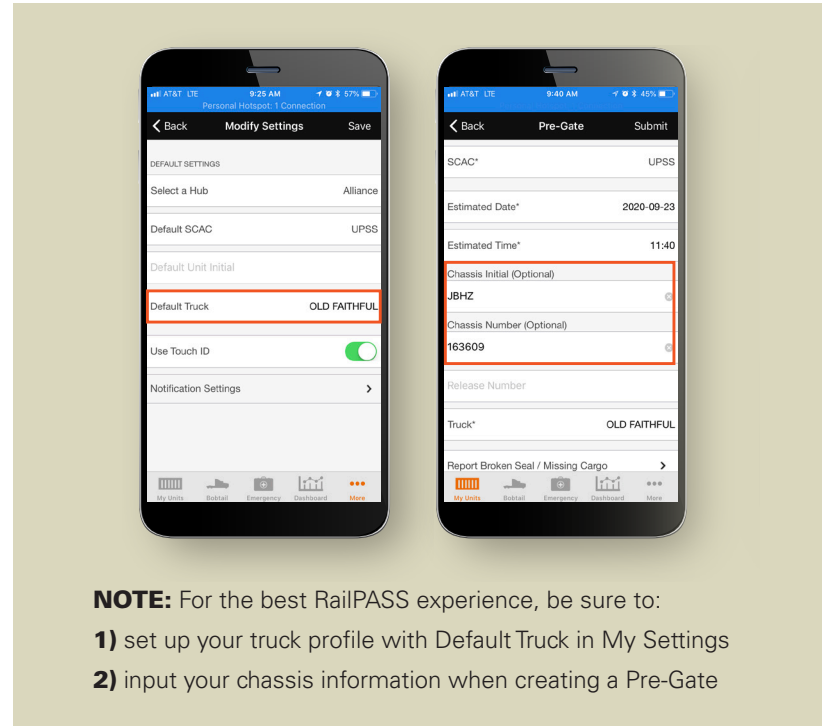

## BENEFITS:

- Reduces AGS gate transaction time by more than 50%
- Improves your self-reliance within the hub, allowing for an efficient overall experience
- Streamlines your turn time within the hub

## KEY FEATURES:

- Pre-Gate unit search and QR code creation for scanning (or input of RailPASS ID) at kiosk
- Up-to-date shipment status information
- Parking Verification to update your parking location when your assigned spot is occupied
- Emergency Notification to call for immediate assistance in an emergency
- Driver Dashboard for tracking real-time turn time trends on a hub-by-hub basis

**NOTE:** For the best RailPASS experience, be sure to:

- 1) set up your truck profile with Default Truck in My Settings
- 2) input your chassis information when creating a Pre-Gate

## WHAT'S NEW?

- Flips**.....Skip the trip to the DAB to get your flip ticket for private chassis. Authorized flip approvals are displayed in RailPASS and that's all you need at the flip line.
- Touch ID**.....Eliminate fingerprint scan at the kiosk by opting-in to "Use Touch ID" / "Use Face ID" (iOS) or "Use Fingerprint Scan" (Android) in My Settings.
- Cargo Security / Seal Remediation** .....Submit Shipment Integrity Reports yourself through RailPASS for missing or broken seals, getting you on your way faster and easier.
- Paperless J1**.....Access your J1 interchange receipts electronically through RailPASS.
- DriveSafe Stability**.....Dismiss false activations of movement and resume using RailPASS immediately.
- Spot Check-in**.....Communicate your updated trackside spot location to crane operators so they can quickly and easily serve you at live-lift hub locations. (currently Memphis only)

*Enhance your overall experience at BNSF hubs.*

**Use RailPASS.**
