

RENEWABLE DIESEL - SINGLE CAR RATES
FROM VARIOUS BNSF STATIONS:**TO VARIOUS BNSF STATIONS:****GENERAL RULES**

- Freight charges must be prepaid when BNSF is the originating carrier or freight charges must be collect when BNSF is the terminating carrier.
- Price applies in U.S. Funds.
- PLEASE BE AWARE THAT, IN ACCORDANCE WITH STATE AND/OR FEDERAL REGULATIONS, BNSF MAY BE REQUIRED FROM TIME TO TIME IN THE FUTURE TO SUBMIT CERTAIN INFORMATION TO GOVERNMENT AGENCIES RELATING TO YOUR FUEL PURCHASES. THIS INFORMATION PRIMARILY INCLUDES THE NAME OF THE SHIPPER, THE CONSIGNEE, THE PAYER OF FREIGHT, THE TYPE OF FUEL, THE QUANTITY OF FUEL, AND THE WAYBILL NUMBER FOR FUEL PRODUCTS THAT EITHER ORIGINATE OR TERMINATE IN CERTAIN STATES. ACCORDINGLY, IT IS CUSTOMER'S RESPONSIBILITY TO ENSURE THAT IT OR ITS CONSIGNEE'S SHIPMENT INFORMATION IS ACCURATELY RECORDED WHEN SUBMITTED TO BNSF AND CUSTOMER ACKNOWLEDGES THAT THE SHIPMENT INFORMATION MAY BE RELIED UPON BY BNSF IN EXTERNAL REPORTING REQUIRED BY APPLICABLE LAWS AND REGULATIONS.
- The Environmental Protection Agency (EPA) has promulgated rules governing motor vehicle diesel fuel (49 U.S.C-80.500 et. Seq.). These regulations require refiners, importers and distributors to designate and track shipments of ultra low sulfur diesel fuel. In order to ship such products on BNSF, shippers of motor vehicle diesel fuel must take responsibility for complying with the designate and track requirements of the regulations. This includes, but is not limited to, registration of all rail fleets/facilities, recordkeeping, and all reporting responsibilities. By the act of tendering such shipments of motor vehicle diesel fuel to BNSF for movement, the shipper is acknowledging to BNSF that they are compliant with all above referenced regulations.
- The Price document number, correct address and patron code must be shown on the bill of lading to insure accurate billing. Payments of freight charges on interline through rates within this price authority are as follows: Freight charges must be prepaid when BNSF is the originating carrier. Freight charges must be collect when BNSF is the terminating carrier.
- Rates in this price list take precedence in the following order: 1st - Point to Point, 2nd - Point to Group, Group to Point, or Group to Group, and 3rd - Mileage Scale.
- Prices in this Rate Item Price List do not alternate with other Rate Item Price Lists.
- Price is subject to a Fuel Surcharge. A mileage based fuel surcharge will be applied to the rates or charges in this price authority for the shipment, as provided for in Item 3377-Series, (\$3.25 Strike Price) of BNSF Rules Book 6100-Series. This amount will be added to the freight bill.
- - Empty disposition instructions are required upon release of empty cars (per Tariff RIC 6007-N). - If notice is not provided upon empty release, hazmat cars will hold for billing and will be subject to BNSF8005C - When a diversion request is submitted, diligent effort will be made to implement the desired change. BNSF will only accept diversion requests when the diversion is considered to be operationally feasible. BNSF further reserves the right to decline any request on the basis that the request is deemed to be operationally unfeasible. BNSF will not be responsible for executing a diversion order on a specified day or time of day. - BNSF will not be responsible for increased charges when the diversion cannot be accomplished at the desired location. An order for diversion which specifies that a through rate is to be protected will not be construed as obligating BNSF to protect other than lawful rate and charges under these diversion rules. - Diversion requests received may not guarantee or effect accomplishment of a diversion at a specified location under the following conditions: - After a car has been classified or assembled into a train for outbound movement. In this situation, a car may be diverted at the next classification yard or interchange location and the diversion will be governed by the rules and charges at that location. - BNSF reserves the right to move diverted empty cars in manifest service unless for BNSF operational convenience or a special train is requested and authorized per BNSF6100A
- Transportation under this agreement is subject to BNSF Rules Book 6100-Series in effect as of the date of shipment. A copy of this Rules Book may be obtained via the internet at: www.BNSF.com.

DIESEL, RENEWABLE HYDROCARBON

SHIPMENT CONDITIONS

CN DELIVERY ABS DEST

Price applies when reciprocal switching is performed at Destination by CN. Switching charges of \$550 by the CN at destination will be absorbed.

SW+295 MAX ABS BOTH

Switching charges at both origin and destination will be absorbed up to \$295.00. No more than \$295.00 per car will be absorbed. Any additional amount will be assessed.

EQUIPMENT

Pvt tank cars meeting DOT-117A/J/P standards

Price applies in Shipper Owned or Leased DOT-117A or DOT-117J tank cars. Mileage payments will not apply.

Pvt tank cars meeting DOT-117R standards

Price applies in Shipper Owned or Leased DOT-117R tank cars. Mileage payments will not apply.

Pvt tank cars meeting DOT111/CPC1232 standards

Price applies in Shipper Owned or Leased CPC-1232 or DOT-111 Tank Cars. Mileage payments will not apply.
